

PUMP Act Advocacy Sample Script

Hi **Legislator Name**,

My name is **First Name** and I am a constituent of yours. I am reaching out to ask you to support the Providing Urgent Maternal Protections (PUMP) for Nursing Mothers Act. I am a breastfeeding supporter in our community and know just how important this legislation will be for the families I serve. Human milk is critical for healthy development and preventing diseases, especially during emergencies like the ongoing COVID-19 pandemic. The PUMP Act is a key step to ensure that families are able to continue providing human milk to their children. Can you commit your support for this important legislation?

Thank you,
First Name (my zip code is: **XXXXXX**)
