

# #NOMOMLEFTBEHIND FUNDRAISER

Families in Flint still do not have access to clean water. Yet, many Flint families are still having to choose between providing human milk for their infants/young children and working to support their families. MIBFN and YOLO worked together on a fundraiser from November 18 to December 31, 2021 to purchase hands-free breast pumps for working families in Flint.

**"WE CAN HAVE SOLUTIONS FOR FAMILIES WITHIN OUR COMMUNITY AND WE KNOW THE SOLUTIONS, BUT UNLESS WE HAVE THE RESOURCES TO ANSWER THE PROBLEM, THE DISPARITIES WILL CONTINUE TO HAPPEN."**

Shonte' Terhune-Smith, BS, IBCLC

## FAST FACTS

24

hands-free pumps donated by local breastfeeding supporters

24

Ameda Purely Yours personal use pumps donated by Michigan WIC

20

hands-free bras donated by Anonymous

## DID YOU KNOW:

Especially in communities like Flint, providing breast pump support, education, and supplies is crucial for families to meet their breastfeeding goals, instead of providing formula prepared with potentially lead-contaminated water.

## NEXT STEPS:

This is only the beginning. YOLO envisions this campaign growing with more pumps being provided to families in Flint to support them on their breastfeeding journeys.
