

RECALIBRATING THE LOCAL BREASTFEEDING SUPPORTER MEETINGS

“

"We all may feel alone in our work, but in these meetings I see that I am not and that we are all in this together. It is an incredible village that provides me hope, motivation, and perseverance."

-Lauren Cody, RD, IBCLC, Local Breastfeeding Supporter

“

"The meetings have made me more aware of disparities in communities across Michigan and provided tools to advocate for and return power to the families I serve in my local community."

-Amber Grassinger, Local Breastfeeding Supporter

“

"I found a VILLAGE in this group of lactation counselors and advocates. So glad to share space with champions committed to help birthing and breastfeeding bodies succeed, who lift up families, who empower and support the work of others, who speak truth to power and are agents of change."

-Bonita Agee, BS, CLC , Local Breastfeeding Supporter
