

# GREAT LAKES BREASTFEEDING WEBINAR

August 2022-2023 Webinar Report

## IMMUNIZATIONS GUIDANCE FOR LACTATING FAMILIES

BY SHONTE' TERHUNE-SMITH, BS, IBCLC, CLS, BD

Available August 16, 2022 through August 14, 2023

### CONTINUING EDUCATION

### WHAT PEOPLE ARE SAYING

"Thanks to this webinar, I'm planning to shift my approach to conversations about vaccines during pregnancy into a much more open conversation format rather than looking for yes or no answers only."

"This webinar reminded me that it is important to provide evidence-based education to families so they can make an informed decision about vaccinating or not. Also that discussing the antibodies that are transferred from the human milk to the baby is important."
