Available August 15, 2023 through August 13, 2024

CONTINUING EDUCATION

WHAT PEOPLE ARE SAYING

"After watching this webinar, if I see a mom who has a relationship with cannabis, I will talk about it differently and try to approach her with more support and less stigma."

"This was a great presentation. I appreciate the acknowledgement of the history, racism and stigma that exists around cannabis. I would love to share this with my colleagues. People need to know this, especially healthcare professionals. I see the biases around cannabis all the time where I work."
