

GREAT LAKES BREASTFEEDING WEBINAR

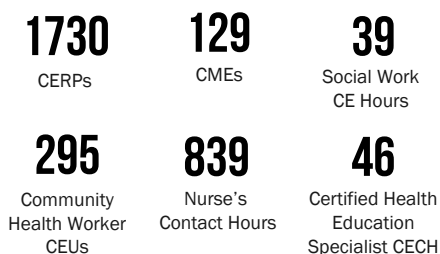

April 2024 Webinar Report

PUMP IT UP AND AVOID SUPPLEMENTATION: SUPPORTING EXCLUSIVELY BREASTFEEDING FAMILIES IN THE HOME BIRTH AND HOSPITAL SETTING BY NICHELLE CLARK, IBCLC, CBS

Available April 8 2024 through February 20, 2025

CONTINUING EDUCATION

WHAT PEOPLE ARE SAYING

"I have learned so much from this presentation, not just information about pumping and different pumps, but also ideas and suggestions for having those conversations with parents, which was wonderful."

"I appreciate the reminder that pumping is absolutely human milk feeding and we need to support the pumping parents as much as the parents who feed directly as the breast!"

"I learned about the stigma families face when pumping instead of feeding at the breast. I didn't know that before, and it's helpful to understand so I can better serve families in my community."
