WHAT PEOPLE ARE SAYING

"Well researched and well presented! I always look forward to new Great Lakes Breastfeeding Webinars' offerings. The information presented always adds further depth to my knowledge."

"Effective lactation assessment in private practice requires balancing clinical expertise with documentation and legal standards, while also building trust and individualized care plans for each client."

"I'm grateful that the classes are free, more convenient and [you] can receive contact hours. Continue to do what you all are doing. Thank you!"
