CONTINUING EDUCATION

WHAT PEOPLE ARE SAYING

- "I really appreciated the speaker's knowledge and experience. It makes such a difference when someone can speak with both confidence and purpose. I'm excited to share this information with my community."
- "Excellent presentation. It connected policy gaps to real impacts on breastfeeding support and addressed issues that are highly relevant in today's sociopolitical climate."
- "I learned that community health workers play a key role in reframing breastfeeding as a public health priority by addressing barriers and advancing equity in community support."
