WHAT PEOPLE ARE SAYING

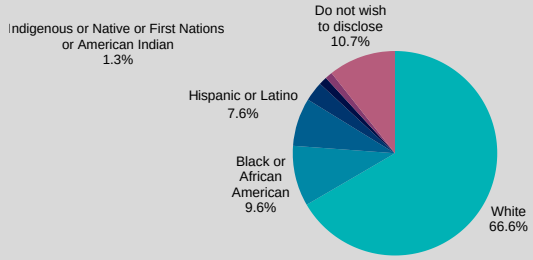

"In my orientation and training, there was no specific teaching on handling infant loss. This webinar was very beneficial and offered insight into ways to show compassion and support a grieving mother."

"I learned so much. A big takeaway is that women still mother their babies even after loss. This is such a beautiful way to approach this type of loss and something I had never thought of."

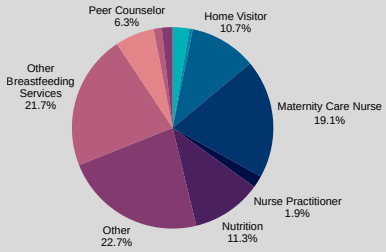

"Nora's story highlights how personalized, continuous, community-rooted care can help families feel seen, supported, and less alone during an unimaginable time."
