WHAT PEOPLE ARE SAYING

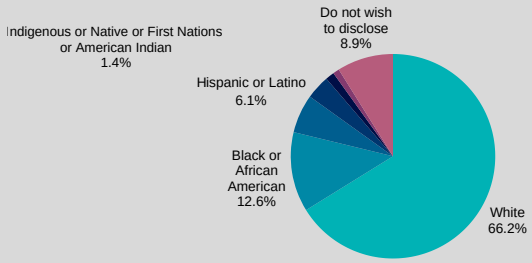

"This webinar made me stop to look around at the healthcare providers I work with each day and really see the racial inequity of the hospital system. I want to change the care I provide."

"I learned that there are people in Michigan who think as I do and can support my continued learning about equity. I often feel alone, and now I can see that I am not."

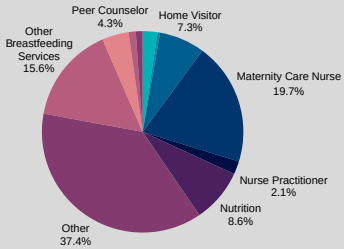

"I loved the suggestion of creating a breastfeeding plan with loved ones. Having that support can help make breastfeeding feel less overwhelming and isolating."
